WORK EXPERIENCE

IT INTERN

Macro wiring technologies co. inc | October 2023-Febrary 2024

- Entering data into a Microsoft Excel spreadsheet
- Designing a banner for the company's rescue team involves incorporating the team's name, logo, and the company's branding elements. It should include a relevant slogan or motto and be visually appealing to effectively represent the team and its mission.
- Troubleshoot hardware and CCTV

PROJECTS

• Web-based On-The-Job-Training Mapping System

This CVSU portal manages student locations and also serves as an online platform where students can submit their requirements.

• E-commerce: Coffee shop

To showcase my skills in HTML, CSS, and JavaScript, I created a online coffee shop. This project demonstrates my ability to develop a functional and visually appealing e-commerce website, replicating the key features and design elements of the online coffee shop platform.

• To do list app

To showcase my growing knowledge of React.js, I developed a to-do list application. This project demonstrates my ability to build interactive and dynamic user interfaces, manage state, and work with modern React features. Through this app, I illustrate my understanding of React development and my commitment to improving my skills
